

King Philip Regional High School Remind App Information Teachers Guide

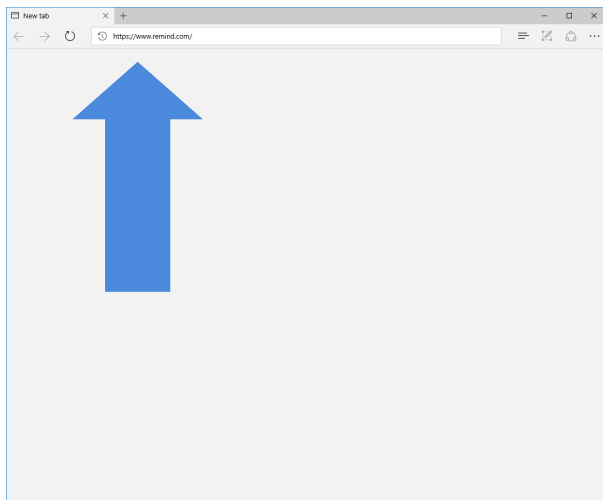

Guide created by the King Philip Student Tech Help Desk (ext. 401)

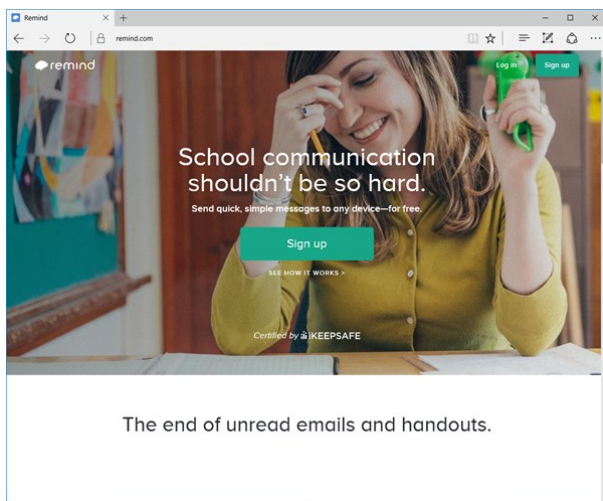

How to set up –remind Account Creation

It's easy, just follow along.

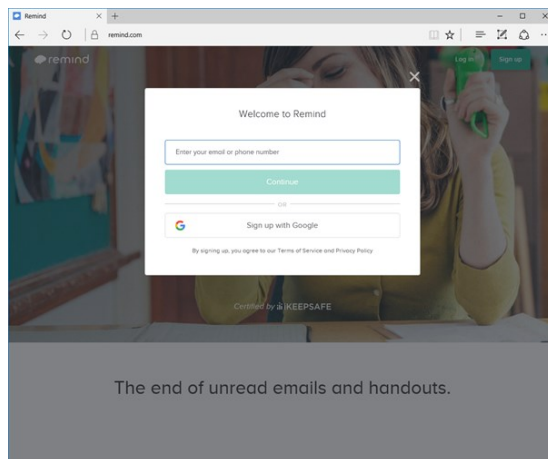

Step 1: Go to <http://remind.com/> or search “Remind” App in Google:

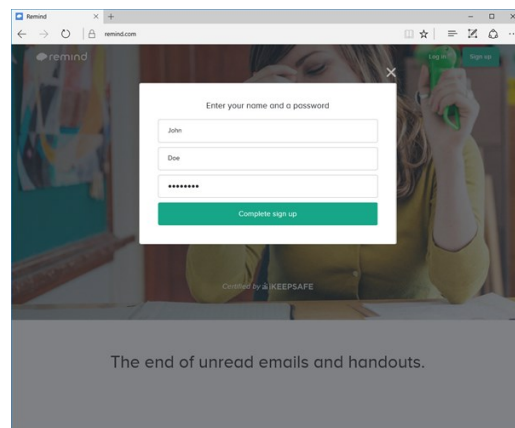

Step 2: Welcome to the Remind App home page! Click “Sign Up” or “Log in” depending on whether or not you have an account.

Step 3: Sign up by entering your email address or your phone number (don't worry, students won't be able to see either).

Step 4: Fill in all your details (name and password) and hit enter.

Step 5: Select your role. Select “I’m a teacher” if you’re using this as a teacher.

Step 6: Select your professional title.

Step 7: Create one of your classes. Please note: In order to make sure “Remind” is as effective as possible, it is suggested that you use a new class for every period that you teach; but this entirely up to you and can be changed based on whether or not you want to keep your classes separate.

Step 8: Add King Philip Regional High School as your school. This will not affect anything within your control panel and you are free to either choose “I don’t work at a school” or to change it later if you’d prefer.
